~ Program Component Descriptions ~

Portrayals ~ A dramatic, one-woman presentation of Biblical women, bringing the Bible to life in ways that offer lessons for the present and hope for the future. Using the sacred text as an outline rather than a script, Anita will challenge you to look deep within yourself and see how faith can strengthen your life and relationships.

Discussion, Small Groups ~ You will break into groups in the conference room to discuss provided questions. It will also provide an opportunity to process the portrayals and ‘ask Anita!’ and relate your shared experiences of the portrayals to the understanding of scripture and of life.

Talk ~ Each talk is designed to provide historical context, lexical scholarship, and theological understanding to the Biblical text. Understanding the scriptures yields wisdom and offers practical application in living out the truths of God’s word.

Workshop ~ This is an intense hands-on dig into the noted topics. Handouts will be provided. AVSS will facilitate formation of groups and guide you for an enhanced experience. Using your Bibles and technology you will look up terms, find scriptural descriptions and explanations to mine the depth of what Paul has for us in Ephesians.
